## PRESS RELEASE

**Event name: Project BLOW- STAKEHOLDERS WORKSHOP**

**Date: 13.09.2023-15.09.2023**

**Location: Constanta, Romania, Mircea cel batran str., no. 104,  
room 710**

**PURPOSE: Creation of an local operative group for floating wind  
turbines in the offshore area of the Black Sea**

We have the special pleasure of inviting you to participate in the Workshop stakeholders event within the BLOW project, which will take place between 13.09-15.09.2023, in Constanta, the headquarters of the Maritime University, str. Mircea cel Batran, no. 104, room 710, starting at 11.00.

CMU with support of partners from project BLOW and with your relevant support hope can contribute to reduce potential conflicts around Floating Offshore Wind Turbines (FOWT) implementation process, encourage investment through predictability, transparency and legal certainty, and ensure environmental protection. We will analysed needs and concerns of stakeholders associated with industrial offshore wind clusters coupled with other low-carbon activities. To achieve this, first, a mapping of the local and regional stakeholders of the wider Black Sea will be performed.

The participants will sign a confidentiality agreement, but part of the debates will be made public. Subject to the interest, stakeholders can create local or issue specific sub-task forces.

**The final goal is to create a local operative group for FOWT.**
