## FORCEJET™ Link Symbol

HC5500 Series realizes high speed printing by performing the optimum data processing and colour management with the printer controller and adjusting print speed, paper size, paper quality, and ink quantity totally with the FORCEJET™ ENGINE. The FORCEJET™ Link Symbol indicates whether each printing related section functions properly.

If colour management cannot be performed properly because, for example, an ink cartridge is not set, the FORCEJET™ Link Symbol goes out. At this time, check the status of consumables and settings.
