Course: Cargo Surveyor

Course aim

The overall aim of the Cargo Surveyor Course is to provide participants with solid marine knowledge required to understand the role of the marine cargo surveyor and the details of the surveys, inspections, claims and investigations for cargoes transported on board ships so they can perform as effective marine cargo surveyors.

Course objectives

On completion of the Cargo Surveyor Course, the trainees are expected to be able to:

- Understand the meaning, the role and the liabilities of marine cargo surveyor.
- Outline the types of cargo surveys performed by the marine cargo surveyor.
- Understanding the considerations in writing the reports.
- Demonstrate the understanding of the properties of cargoes transported on board vessels.
- Recognize the types and role of evidence collected for a specific cargo/damage/claim.
- Understand the causes of cargo damage and claims involved.
- Understand the procedures and importance for sampling of bulk cargoes.
- Understand the importance of ship cargoworthy and the claims involved.

Target group

The course is open to all persons having interest to learn about marine cargo surveying, regardless of years of sea service, age or experience in marine cargo surveying. No restrictions of nationality, gender or employment shall apply.
