

Registration Guidelines – Student Scientific Communication Session

 Registration is done via the Forms-type application, accessible through the link provided in the official event invitation or on the website of Constanța Maritime University.

How to complete the registration form:

- **Full name:** Please use your complete name exactly as it appears in your official documents and on the submitted paper. Follow the format *Last name – First name*, as listed in academic records, to ensure accurate identification.
- **Title of the paper:** Write it in uppercase letters, exactly as it appears on the submitted document.
- **Email address:** This is mandatory. Ideally, use an address that includes your full name, avoiding abbreviations or nicknames. This ensures a professional presentation and helps us manage communication more efficiently (we receive hundreds of emails).
- **Phone number:** Also, mandatory. In case of urgent updates, we may contact you directly. During the event, a WhatsApp group will be created for all participants to share updates regarding the schedule, accommodation, opening ceremony, social activities, and more.

 **Privacy:** Your contact details will be used solely for the organization of this event. If your paper is awarded, we may contact you afterward regarding potential publication, only with your consent.

 **After completing the form,** please send your paper to: relatiipublice@cmu-edu.eu  Kindly ensure the subject line of your email includes *Last name, First name and Title of your paper* — this helps us manage correspondence efficiently.

 **Post-event feedback** Once the session concludes, we would greatly appreciate receiving your impressions. We are especially interested in constructive suggestions — what you enjoyed, what you would have preferred, and how we can improve future editions.

 Best of luck and thank you for reviewing these guidelines!
